

CONFIDENTIAL

2 February 1982

MEMORANDUM FOR: Richard Lehman
 Vice Chairman, National Intelligence Council

FROM: Helene L. Boatner
 Director, Near East/South Asia Analysis, DDI

SUBJECT: NESA Participation in the PMAP Meetings

1. I have agreed to chair both the current intelligence session on 4 February and the internal stability session on 5 February. I presume from the instructions relayed by Charlie Waterman that the current intelligence briefings should concentrate on the Middle East, referring to Soviet activities where applicable. So far as I know you do not plan a specific briefing that morning from anyone in SOVA. If that is wrong, please let me know.

2. The topics we plan to cover in the current intelligence segment on 4 February are Lebanon, Syria, and Israel; Egypt and Sudan; Libya and Morocco; Iran and Iraq; the Arabian Peninsula; and Pakistan, India, and Afghanistan. We plan to have [redacted] deal with the first 3, [redacted] with the next 2, and [redacted] with the last one.

3. For the first session on 5 February, we plan to cover Egypt, Morocco, Iran, the Arabian Peninsula, and Pakistan. [redacted] will do both Egypt and Morocco. [redacted] will handle Iran. [redacted] will handle the Peninsula, and [redacted] will handle Pakistan. I have suggested that one person from each NESA division remain for the Soviet session immediately following. We will make available for lunch whoever you suggest or whoever the panel members grab onto. If you want any changes in the above, please let me know.
